WORKERS' COMPENSATION PLAN

## Hiring Subcontractors? You **NEED** a WC Exclusion Letter

**Did you know that some subcontractors are eligible to be excluded from the Workers' Compensation Statute coverage?**

If you qualify, you need to get a Notice of Exclusion letter from the State of Michigan.

**How do you know if you or a subcontractor qualify?**

- You must work alone.  
**AND**
- Do not hire employees, laborers, independent contractors or subcontractors.

To find out if you qualify for this exclusion and obtain the WC-337 Form, contact the Michigan Compliance Division at 517 322 1195. Visit the **State of Michigan website: [michigan.gov](http://michigan.gov)**

- 1.** The form must be completed, then notarized and returned to the Department of Licensing and Regulatory Affairs (indicated on the form)
- 2.** The Michigan Department of Licensing will date, stamp and record in their records. They will return the stamped form to you.
- 3.** The form may be copied and given to a business owner/general contractor. The exclusion becomes effective on the date stamped.

A few minutes of asking a subcontractor for this documentation can save you hours of anguish and potential fees and fines for noncompliance. Want to learn more about the State of Michigan Notice of Exclusion? Visit the **State of Michigan website: [michigan.gov](http://michigan.gov)**
